**LOYER & ABELLO:
AT THE FOREFRONT OF JURISTIC THEORY**

Michel Abello

Leader:
Michel Abello
Established:
2003

Track record: Well-known and recognized in the sectors of industry, energy, telecoms and mechanics, the firm increasingly deploys its expertise on patents in pharmaceuticals. From counseling to litigation, not to mention prosecution, the team works along the whole lifecycle of innovation, and its lawyers strengthened their reputation in defense of a world leading generic company.

Team & differentiation: At the crossroads of scientific knowledge and legal expertise, the firm unites engineers and lawyers, some of whom are also dual qualified. The trademark department has also been growing since 2012, and it is noteworthy that these professionals have written two reference works on IP, published in 2015.
